

PROTECTED AREA UPDATE

31 March 2015

Smurfit Kappa operations within or adjacent to legally protected area or to areas of high biodiversity value

Some of our European sites operate partly in or are adjacent to areas classified by Natura 2000:

Location	Type plant	Specifics	Other	Area
Czech Republic				
Morava	Paper mill	Site adjacent to the protected area – Natura 2000		In the area Údolí Moravice CZ0813474
France				
Facture	paper mill	site partly located in the protected area Natura 2000	LPO-ZICO AN 01	“Vallée de la Grande et de la Petite Leyre” . Natural areas with high fauna & flora interest, in particular areas protected for birds
Ponts et Marais	corrugated plant	partly in protected area	ZNIEFF type I Natura 2000	In the “Vallée de la Bresle”
Aquitaine	corrugated converter	adjacent to the protected area –Natura 2000		In the “Vallée du Ciron”
Germany				
Badenkarton	2 activities (board mill & converter board plant)	partly located in area classified Natura 2000	protected under the Flora-Fauna-Habitat (FFH) Directive	In the Unteres Murgtal and Seitentäler
Herzberger	3 activities (board mill & corrugated plant & converting board plant)	adjacent to the protected area	flora, fauna, habitat and marked as biotope. This park is part of the Natura 2000 network.	In the Naturpark Harz - Sieber, Oder, Rhume
Wrexen	paper mill	adjacent to the protected area	protected under the Flora-Fauna-Habitat (FFH) Directive- Natura 2000	In Quast bei Diemelstadt- Rhoden
St.- Leon	corrugated plant	adjacent to an area classified Natura 2000	protected under the Flora-Fauna-Habitat (FFH) Directive.	In the protected area under 3 B - Wasserschutzgebiet Wiesloch
Heppenheim	board converting operation	adjacent to the protected area – Natura 2000		In the Hinterer Bruch südlich Heppenheim area of high biodiversity value
Spain				
Vigo	corrugated plant	adjacent to the protected area –Natura 2000		In the area of Gandarras de Budino
Sweden				
Piteå	paper mill	adjacent to the protected area –Natura 2000		In Svensbyfjärden.

		2000		
Eslöv	corrugated plant	adjacent to the protected area –Natura 2000		In Abullahagen

Some other sites are adjacent to sites protected by national or local status :

Location	Type plant	Specifics	Other	Area
Belgium				
Turnhout	corrugated plant	adjacent to the protected area		classified by National legislation - Name : Nature reserve Frans Segers
Denmark				
Dansk Kraftemballage	Corrugated plant	located in the protected area		classified by National legislation - Name : Kolding Havn
Ecuador				
Ecuador Sacks	sack plant	adjacent to the protected area		classified by local legislation - Name Cerro Blanco Protected Forest (White Forest Hill).
France				
Dore	corrugated plant			site located in the area of Regional Park managed by national authority
Germany				
Hoya	paper mill	adjacent to an area protected by national legislation		Name of the area: Wiedesee - Bürgerpark
SWW Schneverdingen	corrugated plant	located in the area		classified as water reserve by local authority
Spain				
Nervión	paper mill	adjacent to the area		Urkiola Natural Park, protected by National legislation
Sweden				
Piteå	paper mill	adjacent to the protected area –Natura 2000		In Svensbyfjärden.
Eslöv	corrugated plant	adjacent to the protected area –Natura 2000		In Abullahagen
United Kingdom				
Townsend Hook	paper mill	adjacent to the reserve area		Holborough Burham Marshes (SSSI), designed site of special scientific interest by national law
Venezuela				
San Felipe	paper mill	adjacent to the national park Yurubi		

Watercourses where Smurfit Kappa withdraws or releases water that are classified sensitive or protected

- Piteå paper mill in Sweden, discharges process water in the estuary Vargödraget which has been designated Nature Reserve (marine protected area) and is classified under category Ia by IUCN.
- Townsend Hook in the United Kingdom, withdraws water from Medway Estuary which is classified as Ramsar site n° 645 wetlands international site ref. 3UK068
- Badenkarton in Germany, withdraws and discharges to the Murg River protected as reserve for salmon.

- Factice paper mill in France, withdraws water from water body located in Landes de Gascogne Regional Natural Park and discharges process water adjacent to Bassin d'Arcachon Natural Marine Park.
- Ponts et Marais in France, discharges cooling water to La Bresle river which is classified as sensitive by the national legislation.
- San Felipe in Venezuela, discharges process water to Yaracuy River which is classified as sensitive by the national legislation
