

SMARTLife

How to achieve the best shelf-life for your wine in BIB

SMARTLife

40 years of experience
in improving shelf-life
of wine in Bag-in-Box®
in one innovative
global service.

We are now offering a brand new set of services called SmartLife, for those who would like to better solve or avoid problems as well as improve knowledge through filling performance diagnostics and training – contributing to an extended shelf-life of the product and happy end consumers.

20

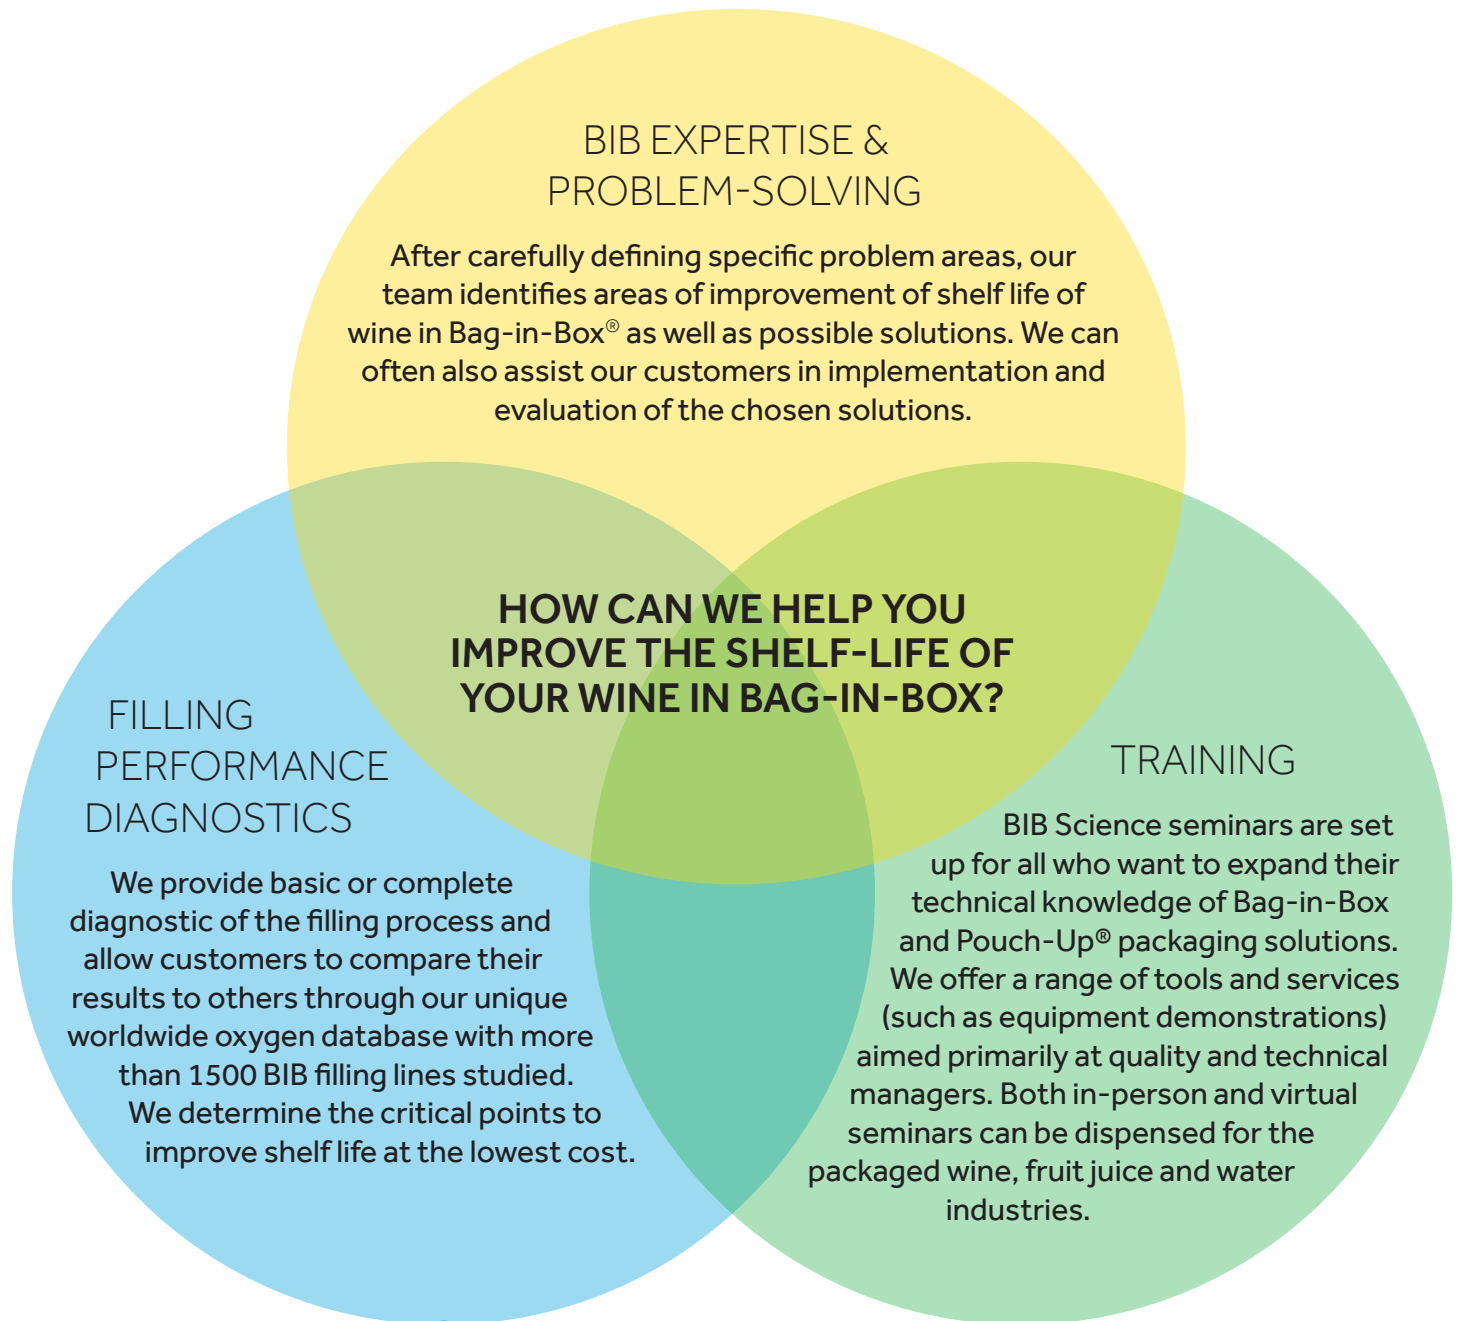

OTR studies/year
O₂ ingress on filled packages

65

Audits conducted
in 50 different wineries
in 18 different countries

1500

Oxygen measures
10 years of collecting data about
oxygen measures in wineries

BIB EXPERTISE & PROBLEM-SOLVING

After carefully defining specific problem areas, our team identifies areas of improvement of shelf life of wine in Bag-in-Box® as well as possible solutions. We can often also assist our customers in implementation and evaluation of the chosen solutions.

HOW CAN WE HELP YOU IMPROVE THE SHELF-LIFE OF YOUR WINE IN BAG-IN-BOX?

FILLING PERFORMANCE DIAGNOSTICS

We provide basic or complete diagnostic of the filling process and allow customers to compare their results to others through our unique worldwide oxygen database with more than 1500 BIB filling lines studied. We determine the critical points to improve shelf life at the lowest cost.

TRAINING

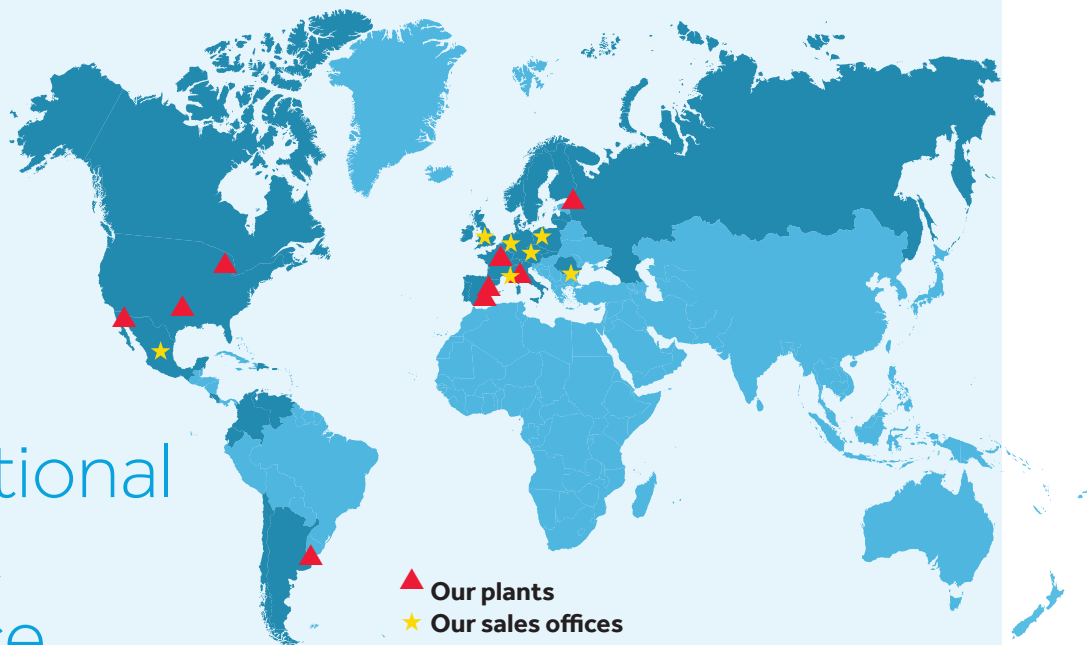

BIB Science seminars are set up for all who want to expand their technical knowledge of Bag-in-Box and Pouch-Up® packaging solutions. We offer a range of tools and services (such as equipment demonstrations) aimed primarily at quality and technical managers. Both in-person and virtual seminars can be dispensed for the packaged wine, fruit juice and water industries.

- Basic or complete diagnostic of filling lines (1)
- Enological process analysis (2)
- Entire process diagnostic (incl. wine preparation and analysis (1+2))
- Optimization of filling line's efficiency

- BIB Science seminars for technicians, quality services, production, engineers...
- Machine operators training
- Oxygen diagnostic method integration in the winery

An international network at your service

Smurfit Kappa Bag-in-Box® is an entire team of people at your service to meet your needs. With the support of 9 plants manufacturing bags and taps all over the world, our sales departments and offices cover more than 40 countries worldwide.
