

GREASE GUARD

WATER BASED GREASE BARRIER

TECHNOLOGY:

GREASE GUARD is a foil-free, natural fat barrier, with which our SOLID BOARD materials can be refined. A water dispersion barrier of binding agents, pigments and starch prevents the penetration of Grease in packaging.

PROPERTIES:

- » *Foil-free and water based barrier*
- » *Problem-free further processing*
- » *Film sealing possible*
- » *Recyclable and compostable*
- » *Contains no perfluorine compounds (PFOA and PFOS free)*
- » *Barrier protection for packaging during shelf-life*
- » *DIN EN 13432 CERTCO certified*
- » *No taxes due to new packaging legislation (GER)*
- » *Suitable for direct food contact*

SOLID BOARD APPLICATIONS:

Primary packagings
Secondary packagings
Shelf-Ready Packaging
Transport packagings

„Grease Guard is a great solution
to replace plastic in folding boxes“
