

MB12

NATURAL MINERAL OIL DEFENCE

TECHNOLOGY:

MB12 uses activated carbon to trap mineral oils (MOSH and MOAH) by adsorption in cardboard packaging. We help to ensure that your food is protected and can be packaged safely.

PROPERTIES:

- » *Adsorption of MOSH and MOAH in SOLID BOARD*
- » *Excellent sensory properties/Odour and aroma protection*
- » *No influence on the printing result*
- » *No adjustments necessary for further processing*
- » *Recycling in the waste paper process*
- » *Adsorber protection for packaging during shelf life*
- » *FSC®- and PEFC-certified*
- » *Application into all SOLID BOARD materials*

SOLID BOARD APPLICATIONS:

Primary packagings
Secondary packagings
Shelf-Ready Packaging
Interlayers
Cores

„We were able to certify that there was no migration of mineral oils in Solid Board with MB12 application...“
