

Smurfit Kappa Safety Information

Visitors badges

All visitors must wear a visible visitors badge. The badges are issued at arrival. The badge must be returned at departure.

Smoking

Smoking is not allowed at the premises
Please use the designated smoking area.

Chemicals

Only chemicals that are registered in the company's chemical database are allowed on the site. If there is a need for introducing of a new chemical, a member of the health- and safety organization is to be contacted.

Photography

Photographing is not allowed on the site unless permission is given by your contact person.

In case of a fire alarm

All visitors must familiarize themselves with escape routes and the meeting point (Samlingsplats). In case of a fire alarm, go to the meeting point using the emergency exits.

In case you detect a fire

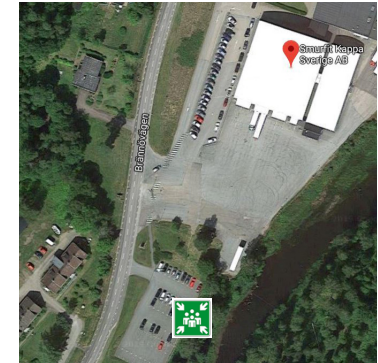

Press a fire button or phone 112. If you find it safe, fight the fire using the nearest fire extinguishing equipment.

Evacuation in Brännögård

Go to the nearest exit and from there to the meeting point, located at the parking area. Guests will be guided by their contact person.

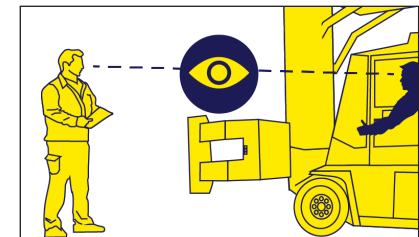

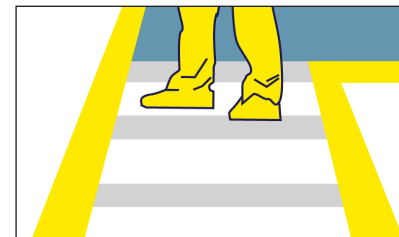

Illness and injury

Heart starter AED are available in the reception, by the fire sign near the corrugator and by loading department. First aid are available and clearly signed.

Traffic in the production and storage facilities

To avoid accidents and disturbances to the production, especially disturbance to truck traffic, pedestrians are obligated to use the marked walkways.

Visitors must always be accompanied in the production and storage facilities. Access to the production area is prohibited without an appointment with the contact person. Keep a safe distance to forklifts and ensure eye contact with the driver.
